## "CUBA IS OURS," SAYS GOMEZ.

HE THINKS HE CAN WIN WITH-  
OUT CLEVELAND'S AID.  
HIS METHOD OF WARFARE.

The Spaniards Cannot Sleep Much, and  
Henceforth They Shall  
Not Eat.

NEW YORK, Aug. 24.—The Herald this morning published the following correspondence from Santa Ana, Cuba, under date of Aug. 18:

In speaking of the attitude of the United States towards Cuba and the possibility of President Cleveland recognizing the belligerency of the insurgents, Gen. Gomez said: "I have forbidden the display of the subject in my camp. For weeks men fairly held their breaths, waiting word from Washington. It was a waste of time. Long ago I realized that we must fight this war alone and unaided. We can win our independence while the Executive of the United States is considering the question of our possible belligerency."

"I have no sympathy of the American people as a whole. In fact, I have the best evidence they are fighting in my ranks, and good, true men they are. The chief of our artillery is an American from Boston, and no braver man lives."

"How long do you think the war will continue?"

"I prefer not to appear in the guise of a prophet. I leave that to Gen. Weyler."

"You are confident of success in the end?"

"As certain of it as I am that Cuba is an island, but I must fight the battle in my own way. I know that we are called guerrillas; that is, we are called marauders. We prefer to fight from ambush. But we are in this war to win. Ammunition is scarce, and I think I know how to use it to advantage."

"Cuba is ours now. It is true the Spaniards hold most of the seaport cities and some of the interior towns, but in the latter they are getting very tired. We don't let them sleep much, and now we will see that they don't eat. The city of Puerto Principe is hungry now. Guayama is suffering, and Victor De Las Tunas is nearly starved. Sibanani is abandoned. The cattle of Camaguey and Santiago de Cuba provinces are out of the reach of the Spaniards, and from this time forth there will be no more carrying of fruit and vegetables into the cities by packtrains. The Spaniards are starving. Every man on this island must be for Cuba or for Spain."

"I have requested the French coffee-growers who did not care to take up arms for common liberty to take a little vacation in France. Some of them have agreed. It will not be for long. If they remain unmolested by my men, they will grow suspicious and destroy their estates, as she has those of the Americans whom I tried to protect."

"Will there be this coming fall any ex-criminals made in your order against grinding cane?"

"Not one," replied the General. "Nothing will be tolerated. The battle of Saratoga, which lasted four days, was anything but an ambush. Gen. Castaneda had more than 2,000 men, while we made the attack with a force of less than 600—not my old, trained veterans, whom I left in the West, but comparatively raw recruits hastily gathered together in Camaguey. The Spaniards fired 50,000 rounds, according to Havana reports; they always capture a quantity of our ammunition. My men may not be possessed of superior marksmanship, but they fire at a hollow square or at a mass, while ours are extended, permits most of the Spaniards' bullets to pass harmlessly by."

"Will they not come out and fight?"

"They will," said Gen. Gomez, with a laugh. "Why have they built that wire fence around the city of Puerto Principe, if not to prevent our chasing them into their holes?"

**MID-AIR PHOTOGRAPHS.**  
Wm. A. Eddy Takes Twenty-Two Tail-less Kites to Boston.

Special to the Post-Dispatch.  
BOSTON, Mass., Aug. 24.—Wm. A. Eddy of Bayonne, N. J., has arrived in Boston with twenty-two large kites, with which an attempt will be made to-day to photograph the city by means of a camera supported in mid-air. The kites are of the tailless type used at the Blue Hill Observatory, when an altitude of 7,441 feet was attained.

The kites will be sent up from the roof of the post-office building. Mr. Eddy's plan is to send his kite up 1,000 feet above the city in case there is a clear sky. In case of a cloudy sky the photograph will be omitted and a self-recording thermometer will be sent up as high as possible.

Mr. Eddy hopes that sunshine will favor him in such an extent that he will be able to send up 100 mid-air photographs of Boston and the harbor. The first kite photograph in America is said to have been taken by Mr. Eddy on May 30, 1893.

## WRECK ON THE B. & O.

Reported That Fifteen or Twenty Persons Were Injured.

PITTSBURG, Pa., Aug. 24.—The through Chicago mail train No. 14 on the Pittsburgh & Western Railroad, which is due in Allegheny at 12:35 p. m., was wrecked at Valencia station, 22 miles from this city, about noon. First reports were to the effect that fifteen persons had been killed, but this was not true. The latest information is that no one was killed outright, but that fifteen or twenty persons were badly injured.

Train No. 14 is composed of sleeping and mail cars. At Valencia it collided with a work train. The wreck was a double one. The work train first ran into a freight train, and the grade being heavy, several cars of the work train went back, colliding with the passenger train. The collision threw the cars over a steep embankment and a number of the passengers were caught in the wreck and seriously hurt.

Among the number was Mrs. Howe of Evans City, who will die.

The position of the freight train cannot be explained. It should have been on a siding out of the way of a passenger train. The work train was running for the Bakewell siding when it collided with the freight. A relief train carrying physicians and surgeons left Sharpsburg shortly after noon for the scene of the accident, and as soon as it returns the names of the injured will be secured. Physicians from Marra, Bakewell and points along the line were conveyed to the scene of the accident as soon as possible. The injured were taken to Valencia, where the citizens aided in making them comfortable.

## A GEORGIA YARN.

That Tom Watson Was Offered a Big Job to "Come Off."

ATLANTA, Ga., Aug. 24.—The Journal this afternoon prints a story which it says comes from a source of undoubted authority, to the effect that the purpose of Senator Tillman's recent mysterious visit to Thomas E. Watson at the latter's home in Thomas county was to see if he could not be induced to retire from the Vice-presidential race and accept a place in the Bryan Cabinet. The Journal's informant, who is a Democrat of high rank, but a warm friend and ardent supporter of Watson, says there is no doubt that a tentative offer of such a position was made, by whose authority it is not known, and very promptly declined.

He said that he declared that inasmuch as he had accepted the vice-presidential nomination in order to preserve his party organization, he would not now accept of an exchange for any other office whatever. It is said that a similar offer, in this connection, is noted as significant that Mr. Watson has better ideas of his position than of late that he would be on the Democratic ticket inside of two weeks.

## LOAN CERTIFICATES.

They Will Be Issued If Asked For at

NEW YORK, Aug. 24.—Shortly before 11 o'clock the available members of the Clearing House Loan Committee of the Associated Banks convened here. There were present President D. P. Edwards of the Galatin National Bank; J. Edward Simmons of the Fourth National; H. W. Cannon of the Commercial Union National Bank; Chairman Tappan said that no certificates had yet been received, aside from the tentative and open one of the National Bank of Commerce, but that if serious applications were made loan certificates would be issued.

The meeting of the committee adjourned at 12:10 and Manager Sheres of the Clearing House announced that the committee had no applications for loan certificates had yet been made. The committee will meet daily on Saturdays to receive applications for certificates. Banks applying for certificates will be charged a commission of 1-16 per cent and an additional 6 per cent for interest.

## AMERICAN NATIONAL ROBBERY.

Two Suspects Under Arrest at Kansas City.

KANSAS CITY, Mo., Aug. 24.—Police detectives have arrested two young men who are suspected of having robbed the branch of the American National Bank in the Love Stock Exchange Building, on Friday last. They are Eli O. Bishop, who recently completed a two years' term in the Clinton penitentiary, and a partner in the \$3,000 from the bank of H. S. Mills, in which he was employed as a book-keeper, and who is wanted in Dallas, Tex., from which point he fled while out on bail pending trial for forgery. Both of the suspects were seen in the corridors of the Exchange Building at about the time the bank was robbed. So far the police have recovered none of the \$2,000 taken by the robbers.

## PYTHIAN KNIGHTS ENCAMPMENT.

BIENNIAL MEETING OF THE ORDER AT CLEVELAND.

REPORTS OF THE OFFICERS.

The Institution Distinctly American and a Firm Stand Taken on the German Ritual.

CLEVELAND, O., Aug. 24.—Hundreds of Knights of Pythias marched into town this morning to attend the eighteenth biennial session of the Supreme Lodge and the National Encampment of the organization.

Reception of brigades, regiments and visitors occupied the forenoon. In the afternoon troops assembled in full dress uniforms in front of the headquarters. There the dedicatory exercises took place. The address of the Centennial Committee by Wilson M. Day, Director General of the Commission, the presentation of Camp Perry Payne by Mayor McKisson; acceptance of the camp by Major General Carnahan, and the raising of the camp flag, occupied the afternoon session.

This evening there will be a band concert, and at 8 o'clock the Supreme Council

SUPREME CHANCELLOR W. B. RICHIE.

Uniform Rank will meet in special assembly at the headquarters of the Major General.

## REPORTS OF OFFICERS.

Good Progress Reported and Important Questions Discussed.

The following is an abstract of the report of Supreme Chancellor Walter B. Ritchie: I feel that in the light of business stagnation which has been general throughout the world, the showing made by our order is most remarkable. The number of members initiated is proof conclusive that the subordinate lodges of the country are active and earnest. We have lost some membership by reason of legislation on the German question, but it is a pleasure to say that the loss thus caused has been more than made up by the new members who have been loyal and true.

The question of the lodge has in some domains materially affected us. We have lost some for another reason. A great many of the lodge members have been set out the weeding out process and are permitting members to be dropped out. In addition to this, it may be said in many grand domains the lodge has been disorganized, and a suspension has been decreed. The lodge provision of the supreme assembly has resulted in the lodges complying therewith and has very materially added

The enterprise in the erection of castle halls, in securing elegant working properties, the higher regard for the membership, have all proven of untold benefit. And I can not say that the work was never upon a safer basis than now.

The receipts for the year ending Dec. 31, 1895, were \$4,322,835, making a total for the two years of \$8,653,690. This shows a net gain in the cash receipts of the subordinate lodges of \$96,492.

The subordinate lodges' assets Dec. 31, 1895, were \$7,068,054, and Dec. 31, 1896, \$8,010,711, showing an increase in the past two years of \$942,657.

The expenditures for relief in 1894 were \$124,573, and in 1895, \$126,598; and in 1896, an increase during the past two years of \$115,000.

The number of subordinate lodges on Dec. 31, 1895, was 5,298, and Dec. 31, 1896, 5,494, an increase in the two years of 196.

The number of members on Dec. 31, 1895, was 445,615; Dec. 31, 1896, 464,539, making a net gain of 18,924.

John Kelly Was Bitten and Is in a Precarious Condition at the Hospital.

When John Kelly, a laborer, living at 17 South Tenth street, awoke Monday morning, he was surprised and alarmed at the swollen condition of his face and neck.

The skin was red and inflamed, and he could almost feel his flesh swelling and puffing out. The pain was slight, but he had been startled by the intention of consulting a physician.

His eyes were already so swollen he could scarcely see through the lids, and his lips were puffed until he could scarcely open them. Afraid to risk himself alone, he got a friend to go with him to the City Dispensary, and by the time he reached there he was writing in pain.

Dr. Lipe made an examination of the swollen face and neck, and discovered that Kelly had been bitten by a black spider on the right temple. The most powerful antidotes were at once applied and Kelly sent to the hospital.

## FORAKER WAS WRONG.

Silver Dollars and Certificates Not Redeemable in Gold.

MAONOLIA, Ark., Aug. 24.—Congressman McRae Senator on the highest authority a recent statement of Senator Foraker. He says:

"Gov. Foraker, in a speech at Columbus, O., last Saturday, which he says he prepared for the press in advance, made the remarkable statement that 'the reason silver dollars are maintained at par with gold is because silver dollars and every other form of United States money are redeemable in gold.'"

"I put against the statement of Gov. Foraker the following official letter from the Treasury Department:

"WASHINGTON, D. C., Aug. 9, 1895.—Hon. Thomas C. McRae, Prescott, Ark.: Sir—In reply to your letter of the 5th inst., I have the honor to inform you that this department does not redeem either standard silver dollars or silver certificates in gold. Both are receivable for all debts due to the United States, but silver certificates are redeemable only in stamped silver dollars, and the latter, being standard coins of the United States, are not redeemable in any other form of money. Respectfully yours, W. E. CURTIS, Acting Secretary."

## HIS FATAL NAP.

August Fielder Went to Sleep While Waiting for a Car Which Struck Him.

August Fielder, a laborer living at 583 Old Manchester street, was struck on the head by a Suburban electric car of the Manchester division at 1:30 a. m. Monday and received injuries from which he died at the Baptist Sanitarium a few hours later.

Fielder had sat down on the edge of the passenger platform, where Sulphur avenue intersects Old Manchester, and was waiting for the car.

His feet rested on the rail. While sitting there he went to sleep.

At 1:30 a. m. the car, No. 306, approached the platform. It was traveling at a high rate of speed and the motorist did not see the sleeping man with his head fallen forward on his knees.

The car struck him with great force and knocked him about fifteen feet ahead and to one side of the track.

Fielder was taken to the Baptist Sanitarium at Taylor avenue and West Bell place. Dr. Tupper found that the skull of the man was fractured and that the man was unconscious from a concussion of the brain.

Fielder never regained his senses, dying at 4 o'clock. He was 45 years old, single, and worked as a sewer diver, boarding at 583 Old Manchester.

## WANTS "VINDICATION."

Why Cabinet Members Will Take the Stump for "Sound Money."

Special to the Post-Dispatch.  
WASHINGTON, D. C., Aug. 24.—Although the report from Kentucky that Secretary Carlisle will take the stump for the Democratic Sound Money ticket when nominated cannot be confirmed, because of the Secretary's refusal to discuss politics in any way at this time, there are the best reasons for believing that he and other members of the Administration will actively participate in the campaign.

For a Cabinet member to go on the stump may be regarded by some as "offensive partisanship" within the meaning of some of President Cleveland's famous circulars on this subject, but there are others who hold that the Administration will be entirely justified in trying to secure a vindication of its conduct even through the election of McKinley.

## EXPLORED THE BAD LANDS.

Results Accomplished by a Geological Party From a University.

SIOUX CITY, Io., Aug. 24.—The geological exploring party from the South Dakota State University, which left Vermillion, S. D., early in the summer for a tour of the "Bad Lands," has returned with a collection of specimens weighing nearly a ton.

Characteristic specimens of about twenty extinct species of vertebrates were found, together with the remains of a great number of individuals. The most valuable was a complete skull of a Titanotherium, and a fragment of a mammoth. Many forms not yet determined are included in the collection.

The record of many geological sections was opened, throwing light on the nature of the problems which Prof. Todd, chief of the expedition, proposes to solve at his leisure concerns the agricultural benefit of mixing the gumbos and the cretaceous and the alluvial and marls of the tertiary.

He also intends to look for means by which the clay solution called water in the Bad Lands can be precipitated and made fit for drinking and to discover, if possible, new water courses in the barren region where a water supply is at present lacking.

## MEANS GOOD-BY.

TO MCKINLEY.

THE NOMINATION OF PLATT FOR GOVERNOR OF NEW YORK

AND, ON THE OTHER HAND,

If He Is Not Nominated, He Will "Throw" the Canton Man Out of Revenge.

Special to the Post-Dispatch.  
NEW YORK, Aug. 24.—If Thomas C. Platt is nominated for Governor on Tuesday, McKinley will be slaughtered in November. Platt will have more at stake than the Presidency and his adherents will sell McKinley out.

If Platt gains the nomination and by treachery should fail to get it, there will not be enough of McKinley left in the State to make a showing. Platt will have revenge.

Platt will be the power if not the person placed in the gubernatorial chair if the Republicans should win, no matter who he may permit to be nominated. The stigma of Plattism is an awful curse to bear and the voters will rise to measure lances with the audacious "boss."

He will fight a bitter battle and will win if it be possible, no matter at what cost to the national ticket.

It now looks, therefore, that Platt will be the everlasting undoing of McKinley in this State.

A situation has thus been sprung on Mark Hanna that fairly staggers him and has created a sensation in this city few political moves have done. It came with such startling suddenness as to stagger even those who are acquainted with Mr. Platt's audacity. He had not been thought of for Governor, and nearly every candidate had been importuning him for help. The tip was given yesterday at Saratoga at an opportune time, and the Platt boom swept all others before it. Mr. Platt says he does not want the place, but the best information is that he will accept it if his wife and son consent. Mr. Platt, in the hands of his friends, and, as Mr. Platt manipulated legislation in the last Legislature and dictated policies thereunder, which turned many dollars into his son's pockets, the son will no doubt consent as a return compliment.

Mr. Platt is a "boss" with a stronger grasp, a more remorseless appetite and, his enemies declare, a more unscrupulous political conscience than the most ideal Tammany chieftain in his palmy days.

Mr. Platt absolutely controls the Republican party in the State. His will is law, and officials and politicians fall upon their knees at his feet. No State legislation, however trifling, is attempted by strong or obscure men, corporations or clubs, unless it has his indorsement, or his promise not to oppose it. He makes and unmakes men and measures at will, and unblushingly dictates how the people of the State shall conduct their affairs. No one on a throne in Europe exercises a more autocratic sway. As a result he is the most feared and the most despised man in the State. Richard Croker was baneful and feared, and deeply beloved in comparison. Mr. Platt is almost sure to be nominated. The men who have been working for a year to secure the nomination are rushing forward with haste to withdraw from the race in his favor. To do otherwise would be political suicide, and committing suicide is not a politician's trick.

In the exercise of his power Mr. Platt has ordered that Warner Miller be put outside the breakwaters of the convention and with him the McKinley League. This will stand for "Sound Money." The moment Miller is thrown out efforts for a bolting ticket will be put under way. Platt has thus answered the challenge thrown down by the McKinley League. This will be the "first McKinley men," and will destroy the presumptuous creatures who dare oppose his sway.

McKinley has been caught between the upper and nether millstones and Mark Hanna will scarcely be able to drag him out.

## LEUT.-GOV. SAXTON SAID.

"In my opinion, the nomination will go to Mr. Platt. The tide has been set that way strongly, and I don't think Mr. Platt can stop it."

Mr. Hamilton Fish, who is a candidate for Governor, said:

"If Mr. Platt will stand for the nomination I will withdraw and second it. I am for Platt."

Mr. Geo. W. Aldridge, who is also a candidate for Governor, is credited with making a similar statement, and it is certain that if Mr. Platt's name is presented all other candidates will withdraw.

Congressman Quigg said:

"Mr. Platt will be nominated by acclamation."

Prior to the advent of the Platt boom the candidates for Governor made these claims:

George W. Aldridge, 20; James A. Roberts, 15; Hamilton Fish, 10; Charles T. Saxton, 10; James W. Wadsworth, 5; Archibald B. Baxter, 5; Frank S. Black, 3; T. F. Ellisworth, 3; John W. Palmer, 2; and Warner Miller, 2. The number of votes in the convention is only 75, so that somebody has grossly misinterpreted the situation.

The McKinley League was not asleep while the Platt boom was growing. Large placards containing extracts from the "Report of the Committee of Twenty-five," under the caption, "How Platt Carried New York County," were placed on a building directly in his way. United States Marshal, who was sent to remove the placards, was told that the placards were not to be removed.

"WE ARE OPPOSED TO THE FREE COINAGE OF SILVER. THE EXISTING GOLD STANDARD MUST BE PRESERVED."—Republican Platform.

## "HONEST MONEY" ADVOCATES.

Persons familiar with the shifts of management in many, if not most of the joint stock corporations of this country, are amused at the attitude of such persons as defenders of the public faith. Certainly it is an incentive to mind to hear the officials of companies, over-issued both as to stock and bonds, and manipulated with the sole view to paying princely salaries by the passing of dividends and the oppression of labor, discourse upon the necessity of "honest money" and of "maintaining our sacred obligations."

J. Selwin Tait, in a recent issue of an Eastern magazine, has a vigorous article against fraudulent American railway management. Mr. Tait says that, owing to such fraudulent management, American railway securities now rank with those of Spain, Portugal, Greece and Turkey. Commenting upon this fact the Manchester Guardian, one of the ablest and most conservative of the English papers, says: "The principal source of the distrust in railways is the manipulation of accounts. The books, as far as the working of the business is concerned, are as well kept as in any country, but the manipulations of the various sources of the railway and other officials to suit their own views or interests is so well proved and is such a monstrous offense against public morals both in itself and in its ruinous results, that the only remedy is that it has been endured for a moment."

We imagine that the deluded, fleeced and in many cases pauperized investors in Reading, Northern Pacific, Atchafalaya, Union Pacific, Baltimore & Ohio, the Cordon Trust and scores of other manipulated concerns will conclude that no worse fate would befall them than to be bimetallic coinage. We are quite sure they are not looking for relief through the election of McKinley, supported as he is by the men who robbed them, in the full assurance that a Republican victory means the repeal of the anti-pooling clause in the Interstate Commerce law, more freight extortions; more mortgages; more bonds; more watered stock, and more money for the men on the ground floor.

## THE FALL OUTLOOK.

St. Louis is once more enjoying summer resort weather, and this time it is likely to stay pleasant. The sun is rapidly nearing the equinoctial line, and from now on St. Louis people and visitors to the city may look for an approach to the delightful weather of the so-called Indian summer.

It was almost too cool in the parks yesterday evening. The crowds who visited the areas of verdure and color were as much recruited as a pleasantly entertained as if they had been at the sea side or in the mountains at great expense.

The theaters are reopening, with a wealth of promising features. In a short time the great annual Exposition will throw open its doors, offering more and better allurements for all classes than ever before. The pictures alone will be worth coming a long distance to enjoy. They are rapidly being placed in position. The excitement attending the Chicago convention is subsiding. Mr. Bryan and other Democratic leaders have shown by their speeches and answers to public inquiries that there is no anarchism or socialism in the Democratic campaign or in Democratic intentions. St. Louis has a fine place to live in and a fine place to visit this fall. Business will take on new life, and amusements will be almost without limit. The fall outlook is very promising.

## GROPPINGS IN THE CAVE.

The St. Louis Wall Street Democrats, at their Uhlir's Cave performance, have kicked higher, with more satisfactory results to the audience, than any day since the occupation those boards during the summer.

For instance, why should the cave dwellers assume that the plank in the Chicago platform denouncing Federal interference in State government, and the usurpation of military power in any State by the Government of Mr. Cleveland? Such an assertion of State sovereignty? Such an inviolability of State government? Since parties began making platforms a medium for the expression of their principles. It is a part of settled and historic Democratic doctrine.

It has been contended by the defenders of Mr. Cleveland's policy at Chicago in

1894, that he acted under the warrant of Federal law which, not having been declared unconstitutional, was mandatory upon him as an executive officer. This view has been accepted by a great many men who realized the necessity of prompt and vigorous action at that time, but who have found ample opportunity to condemn the Cleveland Administration on other grounds and for other reasons. But the St. Louis cave dwellers insist that a re-examination of the ancient Democratic faith is a condemnation of Mr. Cleveland. Perhaps it is. Mr. Cleveland is certainly not a Democrat. But, as one assuming to be a Democrat, and seeking to control Democrats, he is unfortunate in the support of men who denounce historic Democratic doctrine as a condemnation of him and his policies.

## WALL STREET CREDIT BROKERS AND INFLATIONISTS.

Perhaps the un-American patriotism and crass ignorance of Wall Street, as never fully displayed than at the recent meeting of bond speculators, credit brokers, inflationists, stock waterers, gold cornerers and Treasury raiders, organized in McKinley's interest by the Standard Oil Co. and presided over by Money Lord Belmont, the American agent of the Rothschilds.

In support of the policy of contracting the currency to a basis of cornered gold and of issuing bonds at the expense of the people and for the profit of the Rothschild syndicate in order to support the corner, it was asserted that only a small supply of money is actually needed in business, and that the "modern system of credits" is taking the place of cash.

This is a full admission of all that the Post-Dispatch has asserted as the intention of these speculators and inflationists. They wish to contract the supply of cash in order that they may push to the utmost extreme their already wild and riotous schemes of credit inflation.

The Standard Oil Co. and the other trusts supporting McKinley think that one dollar in cash or in property is a sufficient pretext for issuing from ten to fifty of their inflated paper. They have done this in stocks until the country is kept constantly on the ragged edge of panic. Now they propose to apply the same principle to the currency by forcing silver down and out and then by issuing their inflated paper, three to one or five to one against every dollar in gold they can corner.

They are determined to make the United States Government an active as well as a silent partner in the most ruinous scheme of credit brokerage of modern times. The inflation of the John Law bubble is nothing at all to that being forced upon the country by the stock waterers and Treasury pirates, who are backed by foreign money lords, bent either on controlling the money supply of the United States or on ruining the people.

As a result of this conspiracy there is not now enough money in circulation in New York City itself to do the city's business. It is held out of circulation in order to force higher the profits of credit brokerage. In order to take advantage of the system as it prevails in New York, a man must have a bank balance of from \$5,000 to \$50,000 held permanently at his own risk or he is not allowed to do business "without money." The savings banks, which alone will take the business of the people, will not handle the money of the city, and the small retail dealers of the city are constantly cramped for money to do business with. So vicious is the system, so badly does it restrict business, that in villages which surround New York City cash is almost out of circulation. The man who sells a small purchase from retail dealers, in most of the smaller villages there is no bank and if a man had the credit of the Goulds, he could hardly get a check for \$20 cash. Business stagnates for lack of sufficient cash to carry it on, though not twenty miles away there are hundreds of millions in gold and notes hoarded in bank vaults and held out of circulation in order to force profits on money brokerage and dealing in credits.

If this system is perpetuated, if these wild-cat inflationists and stock waterers, these bond gamblers and Treasury robbers, these agents of foreign plutocrats, these ignorant and insolent parasites on the honest business men and producers of America, are allowed to have their way, they will overthrow the Government and bring political as well as financial ruin. They are revolutionists as well as gamblers and extortionists. They despise the American people and hate the American Constitution. Of American public sentiment, they are blindly and insolently ignorant. They learn nothing because they are determined not to learn. When an attempt is made to argue with them, they—these agents of foreign money, these stock waterers, these men who never sell a honest dollar, who live by preying on commerce and robbing both the producer and the consumer—these anarchists and communists of inflation, invite Americans—the people of the stock which fought the revolution, the men who raised the Mexican war, the war of 1861, to "raise the Red Flag so that they can be shot down."

But how is it worth while to be indignant with such folly or to treasure up against the ravages of their ignorant becillity? What more needs to be done than to wrest from its hands the flag of the American Union and to restore it to the guardianship of the people? And that will be done in November!

AN OLD STORY.

A striking fact in this campaign is that the Wall Street Democrats drift naturally to the columns of Republican newspapers. We have already had occasion to call attention to Mr. Lehman propounding the doctrines of Jefferson in the Globe-Democrat and assailing the Missouri Democracy for illustrating them in their politics. Now comes the Honorable William S. Forman of Illinois and assails Gov. Altgeld in the editor of the Globe-Democrat columns with charges of borrowing money from the Illinois Treasury and Illinois State Institutions.

Mr. McCullough has recently offered a prize for the best condemnation by students of McKendree College. He should widen the offer to include the editors of his paper, for so long as two columns of old matter such as this can get into the Globe-Democrat under prominent headlines, the newspaper art of condemnation is known in that office.

## A SURE SIGN.

When a corporation begins to worry about the danger to the people it is a sure sign that there is a possibility of some of its special privileges being curtailed.

## Better Than No Dollar.

From the Washington Post.  
There are some unemployed men who would rather have a 5-cent piece than no dollar at all.

## Language of the Eyes.

O, praise me not with your lips, dear one, Though I cause you to blush and sigh,  
But dearer by far is the soulful gaze Of your eyes, your beautiful eyes,  
Your tender, loving eyes.

O, chide me not with your lips, dear one, Though I cause you to blush and sigh,  
But dearer by far is the soulful gaze Of your eyes, your beautiful eyes,  
Your tender, loving eyes.

ELLA WHEELER WILCOX.

munication, like that of Mr. Lehman, is that it establishes the connection between the Wall Street Democrats and the Republican machine. So far as the charges against Altgeld are concerned, it is safe to say they will be met with silence, as they have on all previous occasions when made. The fact that Mr. Forman has revived them, giving them his personal endorsement with his own signature, will not, we feel sure, move Gov. Altgeld to take the field against an enemy who fights with empty cartridge shells.

If Mr. Perry Belmont and his friend Mr. Hanna could abolish local self-government entirely, they would have a much easier time in using the Federal army to force down wages than they are ever likely to have while there are genuine Americans enough to maintain the Constitution and the Union of self-governing States created by it.

The Louisville goldbug press is blowing horns and filling the State with wind, but it will not deceive any intelligent Kentuckian. Like other goldbug papers, it must have some kind of a dollar and he is not such a fool as to suppose he can get a 200-cent dollar as easily as one that is worth 100 cents.

If Mr. George Gould's cow-coroners think they can hold the Missouri Democracy in check, they will merely succeed in showing their proprietor and his friend, the Prince of Wales, how little they know about Missouri in particular and the United States in general.

Senator Don Caffery has been bought with sugar bounties, but when he tries to deliver Louisiana to McKinley in November, he will find out how little influence Benedict Arnold and his imitators have in American politics.

Young Mr. Garland, formerly of Arkansas, who has "gone over to McKinley," happens to be the agent of a Baltimore insurance company. This fact may have fired him with enthusiasm for the gold standard.

When the battle of the standards began, Maj. McKinley and his fellow-Republican statesmen were ranged on the side of the double standard; now his guns, double shotted, are turned upon that standard.

Messrs. Skinner, Broadhead and Lehman make a beautifully select third party for Missouri. It will soon open palatial headquarters in "Joo" street and inaugurate an active campaign.

A man whose eyes are in such a condition that he sees only half of anything is never mentioned in the retail trade. This, seeing only half of anything is very common.

The great increase in the circulation of the Post-Dispatch since the opening of the campaign is very gratifying. Indeed, the Post-Dispatch nowhere lacks appreciation.

The issue of this campaign is that of popular sovereignty against the sovereignty of a usurious plutocracy. And it is not going to be fought with gloves.

Kentuckians who know their State as "the grand old Commonwealth" will scarcely recognize her if Mark Hanna is allowed to do his work over there.

The goldbugs are in the campaign with "unlimited money." They may find, however, that there is a limit to dishonesty, even in an election.

Bryan continues to have at least ten chances of carrying both Nebraska and Kansas to every five McKinley has of carrying Ohio.

A few months ago Mr. McKinley seemed to be the only pebble on the beach, but lately it has become exceedingly rocky for him.

Whether silver was dropped surreptitiously or otherwise, it is the money of the Constitution and it must be restored.

Neither Shelby in Missouri nor Buckner in Kentucky will be followed by Democrats who think for themselves.

That Robert Edgar Lewis will have to be the tool of Filley, if elected, is not a good card for an ambitious politician.

The only thing for the New Yorkers to do is to approve the Chicago ticket and then go vigorously to work to elect it.

Mr. Harmony is the President of an Ohio Bryan club. Let there be harmony everywhere as well as in Ohio.

Mr. McKinley, who voted to pay the bonds in silver, would, if elected, issue more bonds, to be paid in gold.

The opening financial speeches of the Republican campaign come from the bankrupt State of Ohio.

Missouri Republicans may not like to stand on the gold plank, but it is in the platform to stay.

Als for Bill McKinley! The public now knows that he refused to make a woman a notary.

Four hundred delegates are as good as 2,700 so long as they do the bidding of the "old man."

Mr. McKinley never sped the plow literally, add he will never do it metaphorically.

Orator Cookran forgot how generous the Government has been to Wall Street.

Mr. McKinley is saving his voice in the hope of saving his bacon.

## WELL-KNOWN ST. LOUISAN.

Daniel H. Donovan.

Daniel H. Donovan was born in this city in 1872 and was educated at St. Louis University, from which he graduated in 1893. He then entered the real estate business with the Donovan Real Estate Co., of which he has since continued and of which he is the treasurer. He is also secretary of the Fidelity Realty Co., and is connected with several local lodges and societies.

## MEN OF MARK.

Col. North's fine house at Eltham, which cost \$1,500,000 to build, was recently put up at auction, but as the highest bid was only \$500,000 it was withdrawn from sale. The auctioneer described it, and very properly, as "one of the most princely homes in the Kingdom."

Russell L. Dunn, mining engineer of California, has been engaged by a syndicate of Paris bankers to examine the placer districts on the Amoor River, Siberia. He will sail from New York for Paris at an early date, and will proceed via Moscow and Irkutsk to his destination, a point in Siberia 2,000 miles from the Pacific Ocean.

Dr. John Wesley Gadsden, who has just died in Philadelphia, was known as one of the most skillful veterinary surgeons in the United States. He proved that pleuropneumonia was contagious. He was appointed veterinary inspector by the Department of Agriculture and was an examiner in the Veterinary College in Montreal for several years.

M. Casimir-Perier presided the other day at a dinner given by the municipality of Marigny. This was his first appearance since his resignation as President of France. In reply to the compliments of the Mayor he thanked him for offering "faithful and disinterested sympathy to a man who had retired from public life." "How," he said, "should I regret honors or power when I am freed from fanners, and still have friends?"

A survey of the United States naval register discloses the fact that the palm for sea service belongs to Admiral Luce, who was active list for forty-seven years and sailed for the first time in 1847. His record for that long period was thirty-three years and one month afloat. Admiral Luce is the father of the apprentice system of the navy and was the first to suggest the establishment of the Federal War College.

Illinois has any number of talented women lawyers, of whom the two most distinguished are probably Frances E. Willard, the famous head of the Woman's Christian Temperance Union, and Mrs. Catherine Waugh McCullough. Mrs. Ella Knowles has been named Attorney General of Montana, and Mrs. Helen Gougar has been nominated for Attorney General of Indiana by her party.

## BRILLIANTS.

Mrs. Quiverful (eternally): What was going on in the parlor last night? Ethel (blushing): Only my engagement ring, mamma.—Life.

"Vot laingwishes!" exclaimed the perplexed foreigner. "You say: 'It will rain like 'tunder,' and by Yorge, it vos 'tundering alretty!'"—Chicago Tribune.

Mother: Daughter, have you any valid reason for marrying that young man? Daughter: Certainly! his hair just matches my new gown.—Adams Freeman.

"Has your wife learned to ride a wheel?" "Nup, but she has been taking cooking lessons, and about every morning she goes into the kitchen and has a scorching competition with the cook."—Indianapolis Journal.

Dukane: The college which will attract the most attention this year does not possess a football team. Gasswell: Oh, nonsense. "It's a fact." "What college do you refer to?" "The Electoral College."—Pittsburg Chronicle-Telegraph.

## ENOUGH.

The Marion Republicans have placed the county ticket. The negro committee over the county ticket. The negro committee over the county ticket.

The disappointment of the people of Illinois over the failure of the Republican State League Convention was great. They had been assured that it would be one of the best of the kind and that it would be held in the State and made arrangements accordingly.

Col. Warner Lewis, father of Hon. R. E. Lewis, Republican nominee for Governor, says that the report that he has withdrawn from the Democratic campaign for Governor is a "hoax." He says that he has not lost his mind yet.

The Jefferson City Democrat says: "The Republican press will make no votes for the Republican ticket, but they will make charges against the Democrats. There are few men in public life who stand higher than Lewis, with which a Jesuit priest inoculated his boyhood."

Proud Abbot! Look back and blush so!

THE THEATERS.

"Them folks who is show-hungry," said an observant colored person, who leaned against a telegraph pole on Sixth Street Sunday night and watched the crowds striving to get in the Grand Opera-house for the season in the afternoon and both houses turned more than enough people away to fill them both. It was a great day for Col. John Hopkins and Col. William Garen. At the evening performance there was a line of men and women in front of each box office a block long and an eager, but well-behaved, mob clamored for admission at every entrance. The weather was perfect for the theater, business and the observant colored person was correct in his assumption that the people were show-hungry.

Both houses looked beautiful in their new decorations and fresh carpets and upholstery, and both audiences were well-hoistered and appreciative. If business continues on the scale it began the lessees of the theaters can build yachts and own race horses next summer and never feel it.

"A Romance of Coon Hollow" was the bill at Haylitt's. It is a pretty and interesting love story in four acts, familiar to St. Louis theater-goers. The production was probably the best ever seen here.

There are several members of the original cast in the company, and the special feature is the strong Little Louise Hamilton is the star of the organization. She is clever and cute, petite and pretty, frisky and funny—in fact, one of the most effective workers in the subterfuge line now in the public view. She introduces a number of songs and dances during the action of the piece, and while her voice is nothing to speak of, she has a sprightliness of manner that makes up for all defects.

The other members of the cast are competent. The plantation band, the buck dances and the quartette were received with enthusiasm. "Coon Hollow" will run through the week, with matinees Tuesday, Thursday and Saturday.

At the Grand the first continuous show performance of the season is the first of one. There are eight specialty features and a performance of "The Lost Paradise" by the stock company. The company is stronger in several places than the organization which Col. Hopkins had at the old Pope's Theater two years ago. The house is also better adapted for the production of high-class drama. The scenery is new and artistic, and the properties are satisfying. The production of the drama was creditable in every respect.

Macari's dog and monkey show leads the special features. It has been improved by the addition of several features since last seen here. Among them is a baboon, who is big enough, ugly enough and knowing enough to hold a job as official dog catcher for the free and independent City of St. Louis. The five Fredericks, the acrobats, who were with "The Brownies" last year, perform their wonderful feats; Pete Baker, the German comedian, does a "turn" as a musical artist that is very amusing; Howard and Emerson sing sundry descriptive ballads; Floatie Moore and Castile Brydges sing florid selections; Florence Wright plays the violin, and Walter Ellis whistles in a really remarkable style. The Photoscope is the last of the specialties.

The performances at the Grand begin at 1:30 p. m. and continue till 11:30 p. m.

There was a big crowd at Uhlir's Cave to see the opening performance by Keene, the magician, who will be the attraction there all the week. Keene does a number of the best tricks in modern magic. He was at a disadvantage last night because of the absence of his principal assistant, but the spectators enjoyed the performance and applauded liberally.

## IN THE PUBLIC EYE.

The American people now owe a large sum to European creditors.—Bryan's New York speech.

It has been charged by gold Democrats and Republican speakers and now it is admitted by Mr. Bryan that the United States has an extensive borrower from other nations.

Large sums given to this by statement of the enormous sums invested in railways and other securities of this country, and in business and industry.

I assume that large sums have been so invested, but if yellow gold is the only security, a record should appear somewhere, for the large sums which are said to have been invested in gold were paid for drafts drawn against banks in Europe, or out of the country, the money should have been sent here to pay the debt balances thus created, or goods should have been sent here to meet the volume of such drafts.

It does not appear from the records of the Treasury that any sums of money have been sent to this country for twenty-two years in excess of the money actually sent out of this country.

I call your attention to the Treasury statement for 1893 and 1894. The domestic exports of this country exceeded the imports of merchandise by \$2,000,000,000. The exports of gold coin and bullion in the same time exceeded the imports \$1,117,000,000 and the exports of silver by \$1,117,000,000. The exports of gold coin and bullion in the same time exceeded the imports \$1,117,000,000 and the exports of silver by \$1,117,000,000.

# FLAMES SINGED HIS WHISKERS. N. LACHAPPELLE BURNED BY A GASOLINE EXPLOSION.

## HIS COFFEE-HOUSE DESTROYED

He Was Fastened in a Flame-Filled Room by the Explosion and Narrowly Escaped Death.

Napoleon Lachapelle, who runs a French coffee house at 2 North Jefferson avenue, has taken a solemn oath never to use another gasoline stove. He came pretty near never having a chance to do so by reason of the explosion of the one in his kitchen Monday morning.

Lachapelle is an elderly man, perhaps 60 years of age. He runs his little place all by himself. His cafe is in front. Back of this is the kitchen, with a little room partitioned off by thin boards running half-way to the ceiling. In here the proprietor sleeps.

Monday morning about 2:30 o'clock, Lachapelle went to his kitchen stove to light it. It blazed up, as gasoline stoves so often do, and the old man stood still, waiting for it to go out.

All of a sudden the flames ran down to the tank containing the gasoline. The old man was blown backwards and the whole room became filled with flames. The plastering back of the stove was knocked off the wall, and the wooden partition about the sleeping quarters fell in a heap, blocking passage to the restaurant.

Lachapelle was blinded. His hair and beard were singed. He tried to escape into the restaurant, but found he could not. Then he ran to the back door. It was closed.

With eager fingers he seized the latch. He pulled at it, but it would not open. The force of the explosion had jammed it tight into the casing.

The old man thought he was gone. The flames were so hot about him that he could not breathe. With a final effort of his remaining strength he pulled at the door.

It yielded and, throwing it back, he staggered into the free air outside. He quickly extinguished his burning clothing and hair and ran into the street.

Here he found a small boy and sent him to his home to get his father. The boy ran to the front door and entered the burning building. He found his father and mother in the back room.

He found the poor animal under the bed and gathering it up in his arms, he ran out with it. The firemen were soon on the scene and extinguished the flames.

The damage amounted to about \$500. In the eleventh Congressional District Committee to Decide Important Questions.

The Democratic Congressional Committee of the Eleventh District will meet tonight in the hall at the corner of Easton and Leonard avenues.

It will take action looking to a straightening out of the entanglement which befell Mr. Harrison I. Drummond's refusal to make the race for Congress.

Whether the committee will decide to make a new primary election or whether it will assume the right to name a candidate to make the race, will be determined at this meeting.

The only candidates who are announced are George W. H. Harrison and M. King. Both have friends on the committee, so that each would doubtless have a fair show, should the committee decide to hold a primary.

The chief point of contention is whether the committee should name a candidate to run in the primary, or whether it should leave the matter to the voters.

# ROBBED BY ARMSTRONG. Isaac Bailey Tells How He Got Two Gold Watches From a Drunken Man.

## Gold Watches From a Drunken Man.

John W. Armstrong, who was discharged from army service at Fort Leavenworth, Kan., last week, was robbed of \$275 in money and two gold watches while in St. Louis.

Sunday night Isaac Bailey, colored, was arrested at his home at 339 Sarah street, and the two gold watches were found in his bureau drawer. He admits taking them.

Friday at 3 p. m. Private Watchman Dugan found Armstrong lying on the sidewalk at the corner of Natural Bridge road and Clay avenue. He was in a drunken stupor.

Armstrong was taken to the Fair Grounds Police Station. Saturday morning he was sober and was complaining of having been robbed of \$275 in money and two gold watches. He said he had been robbed of the watches by a man named Armstrong.

While he was asleep the robber found him, went through his pockets and got away with his property. Monday morning about 2:30 o'clock, Lachapelle went to his kitchen stove to light it.

All of a sudden the flames ran down to the tank containing the gasoline. The old man was blown backwards and the whole room became filled with flames. The plastering back of the stove was knocked off the wall, and the wooden partition about the sleeping quarters fell in a heap, blocking passage to the restaurant.

# FACTIONS FIGHT. Rival Fifth Ward Republicans Come Together at the Schwaben-Verein Picnic.

## Together at the Schwaben-Verein Picnic.

The two Republican factions of the Fifth Ward met at Concordia Park Sunday afternoon during the picnic given by the Schwabenverein. There was a fight and two politicians were docketed in the First District Police Court Monday morning for disturbing the peace.

Louis Zepp, the leader of the Lincoln Republican Club of the Fifth Ward, and Charles Schaefer, the high man in the McKinley Republican Club of the same ward.

Both organizations, in full force, attended the picnic of the Schwabenverein, and early in the day Concordia Park was the scene of numerous quarrels and fights.

For a long time there has been a bitter fight in the Fifth Ward, the contention being for the supremacy in the control of the ward. The fight is now being fought on the grounds of the Lincoln Club.

At 4 o'clock in the afternoon the two factions met at the picnic. A crowd of several hundred persons gathered about the contestants. Zepp and Schaefer were seen to have a fight.

Zepp, a former member of the Lincoln Club, was once a member of the Lincoln Club, but who has more recently acquired political views. He was seen to have a fight with Schaefer.

The crowd scattered, and in the round-up of the picnic only two men were made prisoners. Henry Thien, Jr., a Zepp man, and Peter Wagner, a Schaefer man, were taken to the Second District Police Court Monday morning.

They were not locked up, as property holders were on hand to furnish bond for them. Their appearance in court.

Monday morning the cases were docketed in the Second District Police Court for want of prosecution, as neither defendant would appear against the other.

Exciting Runaway. One of Chris Schawacker's Teams Dashes Into a Street Car.

One of Chris Schawacker's teams was put to work Monday drawing disinfectants for the Sanitary Department. One of the horses was a high-strung animal, and his driver, who was not experienced, lost control of the team.

The team was standing in front of the sanitary office and the driver was not on his feet. It was an opportune moment and the horses took advantage of it.

The team dashed into a street car and the driver was thrown. The team was running at a high rate of speed and the driver was unable to stop it.

# REPAIRS.

## Mr. John Gullion of Mason.

Civ. Iowa, a contractor for water and sewer pipes, etc., writes, under date of October 24, 1935: "I am well known to everybody in this town and am always ready to speak a good word for Ripans Tabules. I am never without them and could get you dozens of letters as to their value." One Gives Relief.

From the study of the Rev. J. L. Countermeine, pastor of the Presbyterian Church at Marinette, Wis., comes, under date of Oct. 11, 1935, the unqualified statement concerning Ripans Tabules: "It is with great satisfaction that I say they are by far the best thing I ever used for two things, constipation and indigestion. These have been my greatest trouble." (Signed), "J. L. COUNTERMEINE."

Ripans Tabules are sold by druggists or by mail if the price (20 cents a box) is sent to The Ripans Company, No. 10 Spruce st., New York, N. Y., 10 cents.
